

TRAFFIC DETAILS

Main Street from Moors Circle to Love Street in downtown Kingston Springs will be closed Sunday afternoon, September 18th, from 1:00pm to 8:00pm. During this closure all thru-traffic will be routed around downtown as shown above. If you are coming to the event from the Luyben Hills/Interstate area, please alert the officers at the West KS Road and Maple Street intersection and they will allow you to proceed to the designated parking area downtown. If you are coming from the Craggie Hope/Pinnacle Hill area, please park in the lot across from City Hall. Please see the map on the following page for event space details as well as primary and secondary parking locations.

Please park in the designated parking areas only - we want to be courteous to our downtown neighbors. Of special note, the Kingston Springs Church of Christ will be holding Sunday evening services and parking is not allowed in their lot or behind the Library.
